

SEMINARIO DE ANÁLISIS Y APLICACIONES

Viernes, 26 de noviembre de 2021

11:30 h., Módulo 17 - Aula 520 (Depto. Matemáticas UAM),

y además ONLINE - URL: <https://us06web.zoom.us/j/88662153956>

Mateus Sousa

Basque Center for Applied Mathematics

Interpolation formulas, uncertainty principles and sphere packing

Resumen:

In this talk we will discuss how certain kinds of uncertainty principles and interpolation formulas related to the Fourier transform are connected to sphere packing problems and talk about some recent developments on these fronts.
